PAN'S GATES ARE OPEN

First Day of the Buffalo Exposition Without Formal Ceremony.

DEDICATION DAY WILL BE MAY 20.

Beautiful Rainbow City Not Yet Perfected But Many Exhibits Are In Order and the Mid-way Open For Business.

Buffalo, May 1.—The gates of the Pan-American exposition were thrown open Wednesday morning. Notwithstanding it had rained all night and the weather conditions were threatening, large crowds were gathered at each of the gates, and as the morning brightened the various routes to the grounds were well patronized by those who desired to be in at the opening.

At 8:30 o'clock the turnstiles clicked and the first of the millions of people who will visit the beautiful rainbow city during the six months of its existence passed into the grounds to view and study products of American ingenuity and scientific research and the resources of the two continents of the western hemisphere which will fill the magnificent buildings, beautiful in architectural design, harmonious in coloring and interior decoration.

No ceremonies marked the opening of the gates, it having been decided by the management to combine the opening day ceremonies with those of dedication day, May 20. The change in the date, however, did not cause a moment's relaxation of the strenuous efforts being put forth by every one connected with the exposition to have everything as nearly ready as possible for today's opening. The appearance of the buildings and grounds bore ample evidence of these efforts. Storms and the inevitable delays incident to any undertaking of this magnitude made impossible the realization of the hope that this might be the first of the great expositions to be completed for its opening day. But so much more already has been wrought than was deemed possible at the inception of the project that all are satisfied with the extent and beauty of the fair as it appeared Wednesday, carried through from the beginning by the citizens of Buffalo without state or federal aid.

William Hamlin was permitted by agreement to purchase the first ticket, he having offered some time ago to pay \$5,000 for the privilege. At noon the paid admissions aggregated about \$1,000, the majority of visitors being employees or others entering on passes. At noon the government building was thrown open and the Smithsonian exhibit, as well as those of the National Museum, the interior department, the navy department, the treasury department, the postoffice department, the fish commission and the Philippines exhibit, were all practically complete in detail, and the other departments not far behind. The naval exhibit includes models of all the types of war ships now in the United States navy, among them the battleships Iowa and Texas, the cruiser Brooklyn, the ram Katahdin, the monitor Miantonomah, the training ship Annapolis and the ill-fated Maine.

Much of interest was to be seen in the building devoted to manufactures and liberal arts. Exhibits in the American building were also assuming shape. In the midway Bostock's animals, the Indian congress, the Hawaiian village and other features were ready for business and already had many visitors.

At 2 o'clock a salute of 45 aerial bombs was fired, and simultaneously hundreds of flags were raised on the buildings and grounds.

Callahan Enters Plea at Bar.

Omaha, May 1.—James Callahan, in Judge Baker's court, was permitted to withdraw his plea of not guilty to the charges of grand larceny, robbery and false imprisonment in the Cudahy kidnapping case and to enter a plea at bar, that having been acquitted last week on trial for highway robbery of Cudahy he could not be put in jeopardy again for that affair. When the trial is called, if at all, on these three remaining charges the plea at bar will be passed upon. The state will probably file charges of perjury committed in last week's trial, the maximum penalty for which is 14 years.

Tolstoi's Reply.

Paris, May 1.—The Temps publishes a two-column reply of Count Tolstoi to the decree of excommunication pronounced against him. It is dated Moscow, April 13. He says that as a result of the decree he has received letters from ignorant people menacing him with death. He characterizes the decree as illegal or intentionally equivocal, arbitrary, unjustified and full of falsehoods. Moreover, he says it constitutes an instigation to evil sentiments and deeds. Count Tolstoi denounces the practices of the church.

IN THE LABOR WORLD.

May Day Among the Tilling Masses. All Serene at Pittsburgh.

Pittsburg, May 1.—The first of May virtually opens the building season, and nearly all the scales of the building trades go into effect May 1. Fortunately for the contractors, already rushed with work, practically all these have been settled and the season opened without any labor trouble except the tying up of one or two of the smaller firms which did not settle on the terms of the different contracting associations. Not in years has there been so peaceful an adjustment of the building scales May 1 in Pittsburgh, and this in face of the fact that nearly every trade secures an advance over year just closed and an eight-hour day.

Strike at Buffalo.

Buffalo, May 1.—In this city between 500 and 800 machinists, and probably 300 more in Erie county outside of Buffalo, struck to secure a 9-hour day without a decrease of pay. Many of the local shops at a conference with the men agreed to the demands of the union and will not be affected by the strike. It is understood that the local movement is the forerunner of a strike that may extend all over the United States, Canada and Mexico, May 20, when a general demand for a 9-hour day will be made.

Lake Strike Settled.

Buffalo, May 1.—The strike of the marine engineers is practically settled on a basis of mutual concessions. The Lehigh Valley and Union Steamboat companies have agreed to put on the extra men demanded on the larger boats but not on the smaller boats. The United States steel corporation is expected to come to an agreement with the men Thursday. It is expected boats will be ready to go into commission on the lakes in a few days.

Plasterers and Plumbers.

Indianapolis, May 1.—All the union plasterers in this city went on strike for an increase of 10 cents an hour, which, if granted, will make the union scale 50 cents. A large number of plumbers also went out. They are striking against the apprentices, whom they don't want sent out on jobs with them. Some of the union plumbers are working under a temporary arrangement, and their strike is not a general one.

Plumbers Strike.

Grand Rapids, May 1.—The union plumbers in all but nine or the 22 shops in Grand Rapids went on strike to enforce the new wage scale. The employers refuse to treat with the union. The strike will seriously delay work on 50 new buildings here, as well as on a number of outside contracts. There are 50 workmen out.

Higher Wages Wanted.

New York, May 1.—All the bricklayers and masons of Elizabeth, N. J., to the number of 400, went on strike. At Yonkers 750 bricklayers and plasterers, stonemasons and hod carriers went out. In both instances the men demand higher wages.

No Play For May Day.

Berlin, May 1.—The director of the government shipyard at Wilhelmshafen has issued a warning to all laborers employed at the yard against absents themselves from work and participating in May day processions. They are threatened with dismissal.

May Day in France.

Paris, May 1.—May day is passing quietly. Work is proceeding here as usual, and telegrams from the provinces show that the day has been without any unusual incident.

Strike at Waterbury.

Waterbury, Conn., May 1.—At this place 200 carpenters and joiners, about half the total number employed in Waterbury, went on strike to enforce demands recently presented.

Carpenters Idle at Columbus.

Columbus, O., May 1.—Contractors having refused to grant an increase from 30 to 40 cents per hour and an 8-hour day, the union carpenters are out on strike.

Mayor Defied the Court.

Zanesville, O., May 1.—To satisfy a judgment against the city which council had neglected to pay, S. M. Winn as attorney secured from the common pleas court an execution, under which the sheriff seized the city's patrol wagon and team, which were put in a local livery stable. Mayor J. L. Holden thereupon summoned a force of police, invaded the stable, recaptured the outfit and returned it to the patrol station. Later on, meeting the sheriff, the mayor is alleged to have cursed the court. Judge Frazier named a committee of attorneys to report whether the mayor and patrolmen are in contempt. Meanwhile the police are holding and using the wagon.

Germany Grabs Part of Canton.

Hongkong, May 1.—It is reported that the Germans have selected a concession at Canton, that the preliminaries have been arranged and that possession will be taken soon.

WORDS WITH BARK ON.

Venezuela Given to Understand That Uncle Sam Stands Pat.

COURSE LOOMIS PURSUED APPROVED

Administration's Policy on Pending Issues Remains the Same as Before Loomis Returned—Explanation Made of the Baiz Incident.

Washington, May 1.—Venezuela will be given to understand that the United States has formally approved the course pursued by Minister Frank B. Loomis in his action on various matters in dispute between the two governments. At the same time Venezuela will be told that the United States relies upon her sense of justice in the settlement of these matters. Instructions setting forth the attitude of the administration have been sent by the state department to Mr. Russell, charge d'affaires in Caracas. Mr. Russell will immediately call upon the Venezuelan minister for foreign affairs and apprise him of the fact that the policy of the United States in the several questions pending is the same as before the withdrawal of Minister Loomis from that country.

Diplomatic representations are considered ample at this time, especially in view of the action of the Venezuelan government in expressing regret to Mr. Russell for the arrest of Ignacio H. Baiz, consular agent in Barcelona. By its expression of regret the Venezuelan government, in the opinion of the authorities, has shown a desire to remove all irritation from the relations existing between the two governments.

The state department has received from the government of Venezuela a satisfactory explanation of the circumstances under which Ignacio Baiz came to be arrested and mulcted of a heavy fine. While no details are furnished, it is stated that the action of the Venezuelan government in the matter is all that could be desired, and that Baiz, who has recovered or will recover the money extorted from him, will not be further molested.

Big Floating Dock.

Washington, May 1.—The big steel floating dock to be located at Algiers, La., near New Orleans, being built by the Merian Steel company, is practically completed, and Admiral Endicott, who designed it, has gone to Baltimore to inspect it. It is the largest floating drydock in the world, and cost \$810,000. The problem arises as to how it shall be floated down the Atlantic coast and into the Gulf of Mexico up to Algiers. Over 13,000,000 pounds of steel have been used in its construction. As it is more than half submerged the towing of such a vast and unwieldy bulk is a formidable undertaking. The start will be made some time in December, a number of powerful tugs being utilized. Slow progress will be made on the long trip. The dock is 525 feet long, 100 feet wide across the entrance, with a depth of 28 feet over the sill. It has a lifting capacity of 15,000 tons, and in emergency its high decks will give it additional power up to 18,000 tons. The contract calls for placing the dock in position at Algiers, so that the towing of the structure through the Atlantic and the gulf will be made at the risk of the contractors.

Cornered Corn and Oats.

Chicago, May 1.—Developments on the board of trade are said to indicate that George H. Phillips, the young bull leader, has successfully run a corner on both May corn and May oats. On May contracts he took in about 2,500,000 bushels of corn and 1,500,000 bushels of oats. May corn opened with sales at prices ranging from 48 cents to 48½ cents. Shorts who had sold corn to Phillips and didn't have it to deliver bid the market up to 50 cents, the price Phillips said the option would reach during the first hour and a half. Phillips himself helped bid the price up. Shorts in May oats also seemed to be in his power, the price for them advancing early from 26½ cents to 28½ cents, making a new high record. Phillips sold corn at 50 cents.

Hermosillo, Mex., May 1.—The leader of a band of Yaqui Indians who was captured a short time ago at Cuesta Alta by a detachment of government troops has been executed at Anafjula, by order of General Lorenzo Torres. Prior to his execution he was positively identified as "Apache Kid" by Alexander McDonald, an American scout who is in the service of the government troops. McDonald says he knew "Apache Kid" well in Arizona, and that the Yaqui leader was none other than that person.

Patrick's Arraignment Postponed.

New York, May 1.—Albert T. Patrick was arraigned to plead to the charge of the murder of William Marsh Rice, but at the request of his counsel arraignment was postponed.

PRESIDENT'S TOUR.

Third Day of the Chief Magistrate's Swing Around the Circle.

Memphis, May 1.—The presidential special train pulled out of the union station on schedule time, at 1:30 a. m., for Vicksburg.

Vicksburg, Miss.—Through the valley of the Yazoo the presidential party sped toward New Orleans. Although the president and his party did not reach the train after the big demonstration at the Memphis banquet until after 1 a. m., the president was up early in the morning. Several times he appeared on the rear platform and acknowledged the cheers of the crowds at small stations. Vicksburg was reached at 8:30 a. m. In response to the welcome extended by the mayor of Vicksburg the president spoke briefly and the tour was resumed.

Jackson, Miss., May 1.—The presidential train arrived here at 11 o'clock, 15 minutes ahead of time. Acres of people, white and black, congregated at the depot and gave a royal welcome to the president and party to Mississippi's capital. Governor Longino welcomed the president on behalf of the people of the state. Mr. McKinley expressed delight at the cordial reception, and the 15 minutes' stop here was heartily enjoyed.

Wessons, Miss.—A stop of a minute was made here to permit the president to see the operatives of the Wesson mill, one of the largest cotton mills in the south. About 1,500 employees greeted the president and he made a few appropriate remarks.

New Orleans.—This is the objective point of the third day of the president's trip. The train arrived at 4:30 p. m. The program of entertainment was observed as previously arranged.

RAILWAY RETURNS.

Prosperous Business on the Parallel Threats of Commerce.

Cleveland, May 1.—The annual meeting of the stockholders of the Wheeling and Lake Erie Railway company was scheduled to be held here at noon. Colonel Myron T. Herrick, chairman of the board of directors of the Wheeling company, William Ramsey, Jr., president of the Wabash company, and a number of prominent stockholders in both the companies named, held a conference. It is understood that arrangements have practically been completed whereby the Wheeling road will pass into the hands of the Wabash company.

Mexican Central.

Boston, May 1.—The annual meeting of the Mexican Central railway was held here, and the board of directors agreed upon by the other Mexican Central interests and the New York investors, who have secured control of the road, was elected. Under agreement the new board consists of 17 members, of whom seven were members of the old Mexican Central board, while ten represent new interests.

Lake Shore Election.

Cleveland, May 1.—At the annual meeting of the stockholders of the Lake Shore and Michigan Southern railway the following directors were re-elected to serve three years: Frederick W. Vanderbilt, Samuel R. Callaway, Edward D. Worcester, Chaucey M. Depew, William H. Newman. Out of \$50,000,000 stock issued by the company \$48,000,000 were voted.

Transferred to Q. & C.

Vicksburg, May 1.—Receiver J. H. McCormick turned over to the Queen and Crescent officials the properties of the Vicksburg, Shreveport and Pacific railroad. An order was issued retaining all the old employees. The Vicksburg, Shreveport and Pacific was sold under an order of the United States court March 30.

Can Pay a Dividend.

Cleveland, May 1.—The annual meeting of the New York, Chicago and St. Louis Railroad company was held here. The report of the directors for the year ending Dec. 3, 1900, shows that the gross earnings were \$7,021,358, total expenses \$5,692,265; net earnings \$1,331,093.

Santa Fe Dividend.

New York, May 1.—The directors of the Atchison, Topeka and Santa Fe railway declared a dividend of 1½ per cent on the common stock. The dividend is payable June 18. It is supposed that this is a semi-annual dividend, making rate on the stock 3 per cent.

Pennsy Prospered.

Philadelphia, May 1.—The board of directors of the Pennsylvania railroad company declared a semi-annual dividend of 2½ per cent. The previous dividend was 2½ per cent and ½ per cent extra. No other business done.

Washington, May 1.—In reference to an application of discharge by purchase received from authorities in the department of Cuba, the announcement is made that the privilege of discharge by purchase has been suspended by the secretary of war until further orders.

WRECK IN A SNOWSHED

Whitelaw Raid on the Train and Is Among the Injured.

TERRIFIC CRASH IN DENSE DARKNESS

Limited Train Delayed by a Fallen Rock and the Second Section Plunged Into the Rear Coach, Private Car of D. O. Mills.

Emigrant Gap, Cal., May 1.—In the darkness of smoke in the snowsheds a Raymond excursion train ran into the rear end of limited train No. 2 at Yuba pass, four miles east of here. The private car of D. O. Mills was on the rear of the limited and was badly damaged. Fireman James Saunders of The Dalles, Or., was instantly killed and many passengers and members of the train crew were badly injured.

D. O. Mills and his granddaughter and Whitelaw Reid and wife had just seated themselves at the dining table in the rear of their car when the crash came. All were bruised and scratched, but none seriously injured. Mr. Reid received an ugly cut in the face.

The limited had struck a rock in the sheds and was delayed until the second section came up. Saunders was crushed between the tender and engine. The tender of the second engine was also driven up into the cab. The baggage car climbed over the rear tender and shot up against the roof of the snowshed, knocking down a section of the shed. Conductor Grant was in the baggage car and was thrown through the door, but was unhurt.

Ohio Incorporations.

Columbus, O., May 1.—Citizens' Building and Loan association, Dayton, \$300,000; Cincinnati Automatic Machine company, Cincinnati, \$4,400; South Canton Belt Line Railway company, Canton, \$10,000; Middlebranch and Canton Belt Line Railway company, Canton, \$15,000; Sterns Cafe company, Columbus, \$15,000; Onyx Mutual Aid association, Cincinnati; Schorndorfer Hardware company, Cleveland, \$25,000; Wheeling and Steubenville Railway company, Martin's Ferry, \$10,000; Cuyahoga Falls Realty company, Cuyahoga Falls, \$25,000; Bonded Credit and Collection company, Cleveland, \$10,000.

Choked Himself With His Own Hands.

Chicago, May 1.—Circumstances surrounding the death of C. F. Reimers in a cell of the Fifth Street Police station go to prove that the man actually choked himself to death with his own hands. That he was a suicide is established by a note he left in which he said he killed himself because of unrequited love. Upon his throat were finger marks where he had been choked. Both lungs were congested and covered with hemorrhagic spots. The official physician said death had been caused by strangulation, and a coroner's jury returned a verdict to that effect.

Porto Rican Admitted.

Washington, May 1.—The supreme court admitted to practice Fredericko Degetau, the resident commissioner from Porto Rico in the United States. The practice of the court is to permit only citizens of the United States to practice before it. When he was presented by Solicitor General Richards he was introduced as a member of the bar of the supreme court of the territory of Porto Rico. The admission of Mr. Degetau has caused considerable comment in view of the insular cases pending before it.

Ohio Republican Convention.

Columbus, O., May 1.—The Republican committee has appointed June 24-25 for the dates of the Ohio Republican convention, which will be held at Columbus. Senator Foraker was chosen for temporary chairman, John R. Malloy for secretary, and S. N. Field of Columbus for sergeant-at-arms. The representation will be one vote for each 500 or major fraction thereof cast for McKinley in 1900, which will give 1,058 delegates.

Cubans Sail For Home.

New York, May 1.—Members of the commission from the Cuban constitutional convention sailed for Havana Wednesday on the steamship Havana. Their departure was witnessed by a number of friends. The steamship is due at Havana Friday night. It is expected that immediately on the arrival of the commissioners the constitutional convention will be called together to receive their report.

Coal Tax or Coal Strike?

London, May 1.—At a meeting of the Miners' federation held in London, and attended by delegates from all parts of the United Kingdom, it was recommended that all miners quit work unless the coal tax is withdrawn. Another meeting was summoned for May 7 to finally decide the matter and to fix a date for the stoppage of work should that step be resolved.

It Saved His Leg.
 P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Arnica Salve wholly cured it in five days. For ulcers, wounds, piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by J. Jas. Wood & Son, druggists.

STOPPED THE RUNAWAYS.

A Clever But Risky Piece of Work Done Wednesday by a Young Negro Man.
 A runaway team drawing a spring wagon, partly loaded, caused considerable excitement on Second street shortly after 11 o'clock Wednesday. They started near Sutton street, and collided with two or three vehicles between that and Market, but without doing any damage. A number of men made frantic efforts to stop the runaways, but it remained for Jim Page, a young negro who lives on the Keith farm near Tuckahoe, to do what the others had failed to do. Page was at the corner of Market, and when the runaways came along he ran out, managed to get a firm hold on the tailgate of the wagon and the next instant he was in the vehicle and had the lines. He brought the horses to a stop in front of Alexander's stable.
 It was a daring and very risky piece of work on Page's part, and he deserves great credit for it. Very few would ever have thought of making such an attempt to stop the runaways.
 The team belongs to Mr. Charles Foxworthy, of Mt. Carmel.

A Sanitary Pointer.
 The usual "spring cleanings" in this place have generally been supplemented by a course of disinfection under the direction of the city Board of Health. Any intelligent druggist can supply an abundance of cheap disinfecting material and every housekeeper should be required to see that it is freely applied to the offensive places about his premises. In some localities the vaults are breathing out a mephitic poison which must prove detrimental to the public health during the summer months, and where the liquid filth is actually slopping over, the Board of Health ought to take it in hand at once.

Plans and specifications for the new parsonage to be erected by St. Patrick's Church will be at the residence of the pastor, Rev. Father Jones, to-morrow morning. Prospective bidders are invited to call.

IMPROVED MACADAM STREETS.

They Are Cheaper Than Asphalt or Brick, and Are Clean, Lasting and Easily Maintained.

[Danville Advocate.]
 The Sanitarian for April contains an article on improvement of macadam streets that gives the result of an experiment on lines that could be adopted by Danville with equal success and at no greater, if not at less, expense. At various times the question of paving a portion of Danville's Main street with brick or asphalt has been agitated, but the improvement was never undertaken owing to the cost. The improved macadam does not offer that obstacle. The cost of construction is very little more than the ordinary macadam. The only additional expense, in fact, is that that would be incurred in the method of construction and the cost of the tar and a small quantity of gravel. The tar and the gravel are the only materials not now used in the construction of our streets. The cost of these materials would be nominal. The heaviest expense, perhaps, would be incurred in laying the pavement. The broken rock must be thoroughly saturated with tar, two layers with gravel between are spread, each thoroughly rolled with a twelve to sixteen ton roller and finished with a dressing of screenings. The cost of this road is from 60 to 86 cents per square yard, including the foundation. But as there would be no expense for foundation, the streets of Danville being a solid bed of rock of more than the required thickness, probably more than half the cost of construction can be saved. The report of Jas. S. Shepard, U. S. Consul at Hamilton, Ont., where the experiment has been made, says:
 "The possibility of making good roads at reasonable cost has been demonstrated, and tests extending over a number of years on business streets prove that tarred macadam makes not only a smooth and solid roadway, but one that can be kept in perfect repair at nominal expense.
 "The first cost in this city, where limestone is abundant and near at hand, is from 70 to 86 cents per square yard; and the engineer estimates the cost of repairing on heavy traffic streets at less than 1 cent per yard per year, while asphalt costs over 3 cents.
 "The addition of tar renders the roadway impervious to water, frost proof in winter, and prevents mud and dust in summer. It is easily repaired and does not require scraping, thus avoiding much wearing of the surface.
 "One block of tar-macadam laid more than a year ago on a business street where there is heavy teaming shows no perceptible wear to-day. In residential streets these pavements have been in use eight years without any repair and are still in good condition."

A Great Combine.....

The cheapest kind of goodness and the best kind of cheapness will be found in our announcement to-day. Cheapness of price without goodness of quality never tempts the sensible buyer. Here you will find a combination of goodness and cheapness of price so strong that it stamps every item named a genuine bargain.

STORM SERGE.

As weatherproof as a bird's feathers, Storm Serge is a necessary fabric for women's wear. Navy blue and black, 50c. to \$1½ a yard. The higher grades are 50 inches wide. Separate Skirt—Storm Serge you instantly associate the two, for what gives such service as a storm serge skirt varied by different tasteful waists.

VENETIANS.

This is a plain goods season and Venetian is King, or shall we say Queen? Venetians differ. Were we foolish enough to sell you the average sorts we know you'll bring the goods back for you'd quickly find out their short comings. A Venetian at 75c. is just beginning to be a venetian, good, good looking, durable but barely a Venetian. What is known as the regular 75c. kind we sell for 50c.—not to break prices but because we can afford to. We've Venetian to sell at 75c. but that's better. Then other grades at \$1, \$1½, \$1½, \$2, the latter from France and of special merit. The \$1½ quality is likewise noteworthy.

The colorings are ideal this season. Not in any one line but in the stock altogether we have a dozen exquisite shades.

MR. ANGUS WOOD.

While at Bedside of a Sick Friend He Was Suddenly Stricken and Died in a Few Minutes.

The friends of Mr. Angus Wood of Fern Leaf were greatly shocked this morning by the sad news of his sudden death, which occurred under rather unusual circumstances.

About midnight last night Mr. Wood was summoned to the bedside of his friend and neighbor, Mr. Lute Killgore, who is critically ill. Mrs. Wood accompanied her husband, and on the way he was chatting pleasantly with her and made no complaint whatever of feeling unwell.

Arriving at Mr. Killgore's home, Mr. Wood had been in the sick room only a few minutes when he was taken ill, and stepped out into the rear yard. Those in the room thought his trouble of no serious nature, and gave their attention to young Mr. Killgore, who at the moment was in an extremely critical condition. About five minutes later, Mr. T. F. Killgore, father of the sick man, went out and found Mr. Wood leaning against the fence, as he thought. He spoke to him, but received no reply. Returning he sent others out and they were shocked to find Mr. Wood dead. While leaning over the paling fence, he had been suddenly stricken with heart disease and was found dead in that position.

Mr. Wood was a son of the late Benjamin Wood of this city and was forty years old. His early life was spent in Maysville, and he afterwards resided with an uncle in West Virginia, where he married a Miss Inskip, of Moorefield, who survives him. He leaves no children. His mother was a daughter of the late Squire Turner of Fern Leaf precinct.

Mr. Wood was one of the county's best citizens, a gentleman of exemplary character and popular with all who knew him.

The funeral arrangements have not been announced, but the services will probably be held some time Saturday. The remains will be buried at Germantown.

Mrs. Rolla Owens is ill at her home on Commerce street.

Mrs. J. W. Oder, whose serious illness at Lexington has been mentioned, was thought to be resting somewhat easier last evening.

Mr. Jacob Caproni, the fruit man, was driving west on Second street, Fifth ward, Wednesday, when his horse slipped on a crossing and fell. The sudden jerk landed Mr. Caproni on the street also. He escaped with a bruised face.

Fought for His Life.

"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infalible for coughs, colds and all throat and lung trouble. Guaranteed bottles 50c. and \$1 at J. Jas. Wood & Son's drug store.

The residence of Frank Wilson near Mt. Olivet was destroyed by fire this week. A little girl named Clark who was living with the family was fatally burned. She was building a fire in the stove with kerosene and her clothing caught fire. Her screams brought help, and in trying to save the life of the child the fire was neglected. The loss on the house is \$2,000, partly covered by insurance.

Old Soldier's Experience.

M. M. Austin, a Civil war veteran, of Winchester, Ind., writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25c. at J. Jas. Wood & Son's, drugstore.

Miss Bertie Coryell, aged twenty-three, was adjudged insane at Flemingsburg and sent to the asylum. She is a daughter of W. O. Coryell, of Dalesburg, and her trouble was caused by an attack of measles. A sister of the unfortunate girl died a week or so ago from the same disease.

The Ripley Bee says W. H. Reinert is authority for the statement that last week while Capt. W. L. Thomas was coming down the river on his little steamer Hugart, and when near Rome, Ohio, he caught a live monkey on some drift. It was quite a large fellow and after they got it on the boat they had trouble to get it in a box.

Perhaps your watch don't keep time—runs too fast or too slow or may be it stops. Bring it to us, and no matter what is the trouble we will make it keep time to perfection and not charge you any more than others who are not competent to do first-class work if they wished.

BALLENGER, jeweler and optician.

Rev. J. R. Savage, pastor of the South Methodist Church at Frankfort, has been holding a meeting the past two weeks, doing all the preaching himself. At almost every service confessions are made. A general religious revival seems to have taken hold of the capital city. The first meeting was at the First Baptist Church, Rev. M. B. Adams, formerly of Lewisburg, pastor, resulting in fifty-five additions to his church. The Methodists followed the Baptists, and the Christian congregation will follow the Methodist. Rev. Mr. Adams aroused the people when he told them in a series of sermons of sin in all its forms in Frankfort, and drew the line lastly between the church and the world.

FRANK OWENS HARDWARE COMPANY

BELGIAN HARES.

Will They Prove a Menace or a Blessing?
Zoologists Studying Them.

[W. E. Curtis in Chicago Record Herald.]

The zoologists of the Department of Agriculture are not yet prepared to say whether introduction of Belgian hares into the United States will be a nuisance or a blessing. In Australia the introduction of ordinary rabbits proved so disastrous that the government was compelled to take the matter in hand and use the army to exterminate them. The animals bred so rapidly that they overran the farms and the pastures and destroyed the forage and vegetables as effectually as the locusts of Egypt or the grasshoppers of Nebraska.

A bounty was offered for rabbit skins, and everybody went to killing on his own hook, but they increased so much faster that it seemed for a time the whole continent would have to be abandoned by its human inhabitants. Then the government ordered out the militia and for months thousands of men were engaged in the extermination of the pest.

Some fear has been felt lest the introduction of the Belgian hare should result in a similar danger to this country, and the Government zoologists are now making anxious observations. It is claimed that the Belgian hare is purely a domestic animal, incapable of sustaining life without the aid of man. This question will soon be decided, however, in Southern California, where the industry of raising hares for their pelts was taken up two years ago and then abandoned as unprofitable. The hares were turned loose, and are now in what may be called a wild state.

The experts are watching them and

particularly noting the rate at which they multiply. The indications are that they may become a nuisance in that warm climate, but it is not believed they will ever endanger the agricultural interests of the Northern States because they cannot endure the cold winters. At any rate, the experts of the department are withholding their opinion until they have made further observations.

A MEASURE OF MERIT.

Maysville Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Convincing evidence in Maysville is not the testimony of strangers, but the endorsement of Maysville people.

That's the kind of proof given here, The statement of a Maysville citizen.

Mrs. John E. Burns, of West End, near Pogue's, says: "I am greatly pleased with the benefit I received from the use of Doan's Kidney Pills, which I procured at J. Jas. Wood & Son's drug store, corner West Second and Market streets. Use proved them to be the best kidney remedy I know of. I have heard a number of persons speak of the great relief obtained from the use of Doan's Kidney Pills."

MUST BE WATCHFUL.

A Careful Lookout Required of Those in Charge of Trains Running Through Cities.

In affirming the case of Keelin's administrator against the C. and O. taken up from Boyd County, the Court of Appeals says:

First—Where the tracks of a railroad company run along the streets of a town and through a part of the town where large numbers of persons are likely to be found trespassing on the tracks, it is the duty of the servants of the company in charge of a train to keep a careful lookout for the purpose of discovering persons so trespassing and to warn them by the usual and customary signals of the train's approach and their danger, and, when necessary to avoid killing or injuring them, to slacken the speed and stop the train, and a failure to do so is actionable negligence.

Second—The fact that the train by which the deceased was killed was running at such a high rate of speed through the limits of a city as to put it out of the power of those in charge to a large degree to control its movements and avoid the killing of deceased after he was discovered on the track was evidence of negligence, which it was proper to submit to the jury.

Third—The mere fact that the deceased was a trespasser on the tracks of the company in a portion of the city where numbers of persons were in the habit of going upon the tracks with the knowledge of the company does not constitute such contributory negligence as would authorize the submission of the question to the jury.

An attempt was made to kill the Captain on the steamer Tacoma three miles above Vancouber Monday. The Captain was on the hurricane deck, when shots were fired by unknown parties from the bank. The swells in the river made by the boat caused a great deal of fencing to be washed away on the river banks, and it is thought this was the cause of the shooting.—Public Ledger.

The Ledger is one of the several papers that published the above. The Tacoma made her first trip since the recent flood yesterday. Monday she was laid up at Cincinnati. So far as the Tacoma is concerned the item is not true.

Questions for Women

Do you have periodical pains? Do you have frequent backaches? Are you nervous? Are you continually exhausted? Do you suffer every month? If you answer "yes" to any of these questions you are suffering from ills which Wine of Cardui cures. Do you appreciate what perfect health would be to you? After taking Wine of Cardui, thousands like you have realized it. Wine of Cardui insures freedom from female diseases. At each recurring menstrual period, if care be not taken, slight ailments will appear. Nervous strain, loss of sleep, cold or indigestion start disorders which are not noticeable at first, but day by day steadily grow into troublesome complications. Wine of Cardui, used just before the menstrual period, will keep the female system in perfect condition and render it invulnerable to disease. The medicine is taken quietly at home. There is nothing like it to help women enjoy good health. Wine of Cardui costs only \$1. Test this remedy, which is endorsed by 1,000,000 cured women.

WINE OF CARDUI

Cairo, Ky., Sept. 6, 1899.

I take pleasure in writing a few lines in praise of your wonderful medicine, Wine of Cardui. It is the best medicine I ever heard of. I am thirty-six years old and have been sick all my life. I had a dozen doctors, but none of them did me any good. I have taken one bottle of Wine of Cardui and will take another with Black-Draught. I have been married six years and have a baby five years old. I had womb and kidney trouble. My monthly period was so bad that sometimes it came twice a month. I was too sick to do work for a family of three. I was in bed when I got the bottle of Wine of Cardui. Now I am up and can do most of my work. When I was sick I could not sleep at night. I sleep well at night now. A friend of mine advised me to use Black-Draught with Wine of Cardui.
